Woman Swimmer Nears Half-Way Mark of Course

POUGHKEEPSIE, Oct. 16.—Covering twelve and a half miles in five hours and five minutes, Mrs. Lottie Moore Schoemmel promises to break the record of swimming 160 miles, from Albany to New York, in sixty-three hours and thirty-five minutes. Her total time in the water since she started her swim last Sunday has been thirty-two hours and twenty minutes, covering, in all, seventy-four miles.

Night swimming will be eliminated for the rest of the journey as far as possible, for Mrs. Schoemmel has been numbed by the coldness of the water in the last few nights. She expects to be in Newburgh tonight, and expects to reach New York early next week.

She said today that she would try to swim the Channel from England to France and back again without a stop next summer.

Woman Faces Hall Charges

(Continued from Page 5)

upheld this contention, counsel for the private detective announced that on Monday he will renew the motion before the entire board of justices.

Stories of persecution of government witnesses went the rounds last night, following a visit Mrs. Jane Gibson, the "pig woman," paid Police Inspector John J. Underwood. She declared that since her narrative of four years ago seventy-three of her pigs and a number of her chickens had been killed by poison.

Inspector Underwood summoned Mrs. Gibson to his office for the express purpose of learning the nature of the treatment to which she has been subjected since she became an important figure in the case. She told him that a Dr. Loblein, a veterinary, had examined her dead hogs and chickens and declared all had been poisoned.

Every obstacle was put in her way, with a view to driving her out of business, she stated. She claimed the banks had refused to advance her money to meet increasing obligations and that, little by little she was forced to sell parcels of her original sixty-three acre farm, which has now dwindled down to nineteen acres.

Mrs. Gibson related for the first time how she had been attacked by Nellie Russell, the negress who refutes the "pig woman's" statements.

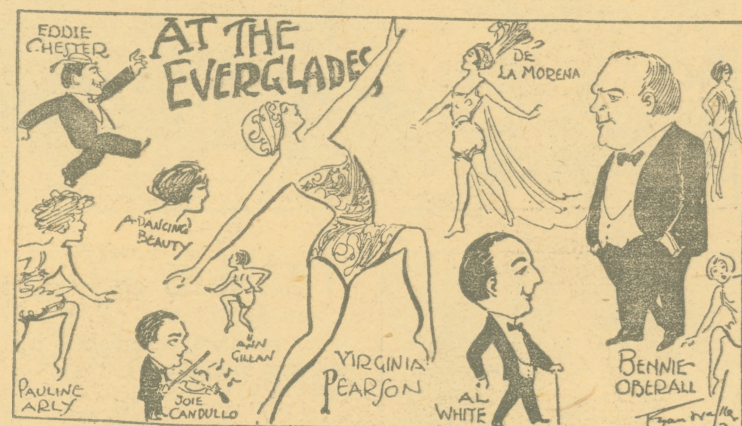

Senator Simpson declared that he would go to Albany to personally oppose Di Martini's application for a stay of extradition.
